

Installer Briefing: Key Updates

Real-Time Delivery Tracking Now Available

You can now track your Soligent deliveries in real time, giving you full visibility from dispatch to arrival so you can better plan installs, coordinate crews, and eliminate guesswork.

With live tracking, you get:

- Real-time driver location
- Accurate estimated arrival times
- Ongoing delivery status updates

No more waiting windows. No more uncertainty. Just clear, reliable delivery visibility—built for installers.

GENERAC + \$1500 INSTALLER PROMO

GENERAC: Delivering a **fully integrated** energy ecosystem

Generac delivers a fully integrated home energy ecosystem designed to maximize resilience, independence, and efficiency—anchored by the PWRmicro 2:1 microinverter.

From solar generation to storage, backup power, and smart load management, every component works together through a single interface to optimize energy production and consumption while balancing comfort and conservation. The system includes the ecobee smart thermostat for intelligent energy control, a home standby generator for 24/7 backup, the PWRcell 2 battery cabinet with up to 38kWh capacity, a smart disconnect switch for microgrid interconnection, and PWRmanager for advanced circuit-level control (up to six 60A circuits, aligned with NEC 2023).

Installers benefit from the Field Pro App for streamlined installation and commissioning—including nighttime setup. The PWRmicro is now included on [LightReach's](#) AVL, *qualifies for the Domestic Content adder*, and features 410W AC output per module with a 25-year warranty, including an industry-leading 5-year labor warranty. [Join Generac's upcoming webinar on May 8](#) to learn more about deploying this end-to-end solution with Soligent.

PROMO: [Register 3 Systems by June 30th 2026 and receive \\$1500](#)
